DATA ANALYST | STATISTICIAN

PROFESSIONAL SUMMARY

Data Analyst and Statistician with experience analyzing and interpreting multi-center, survey, and transactional datasets to identify trends, measure outcomes, and generate actionable insights. Experienced in data cleaning and validation, statistical analysis, data visualization, dashboard development, and analytical reporting. Skilled at translating complex datasets into clear findings that support research, operational planning, and institutional decision-making. Proficient in SPSS, Power BI, SQL, Excel, and Python, with an MSc in Statistics providing advanced training in statistical methods, research design, and data analysis.

CORE COMPETENCIES

Statistical Analysis & Modelling | Data Analysis & Interpretation | Data Cleaning & Validation | Data Visualization & Reporting | Survey Design & Analysis | Trend Analysis | Dashboard Development | Database Management | Research & Quantitative Methods | Data Quality Control | Statistical Reporting | Decision Support

TECHNICAL SKILLS

Data & Statistical Tools: SPSS | Power BI | SQL | Microsoft Excel | Python (pandas, NumPy) | Google Sheets

Analytical Methods: Statistical Analysis | Survey Data Analysis | Descriptive Analysis | Trend Analysis | Quantitative Research | Data Validation | Data Visualization

PROFESSIONAL EXPERIENCE

DATA MANAGER — August 2023 - Present

Paediatric Endocrinology Training Centre West Africa (PETCWA)

- Analyzed 4,000+ patient records across 40 centers in Nigeria to identify trends in Type 1 diabetes cases, patient volumes, and center-level activity.
- Evaluated patient attendance and recurrence data to identify utilization patterns and provide evidence for patient support and program planning.
- Analyzed monthly insulin inventory data across 40 centers, identifying supply gaps and providing data to support stock reallocation decisions.
- Consolidated and analyzed multi-center data for annual reporting to Federal Medical Centres, translating findings into reports for institutional monitoring and oversight.
- Improved data collection, validation, and reporting processes across participating centers, increasing workflow efficiency by approximately 80% and reducing documentation errors.
- Developed analytical reports and data visualizations to communicate trends, patterns, and operational findings to stakeholders.

DATA ANALYST INTERN — November 2024 - January, 2025

Advantra Technology

- Generated a synthetic dataset using Python and the Faker library to model 2024 e-commerce transactions for revenue and customer analysis.
- Analyzed customer purchasing patterns, payment preferences, and product performance to identify trends and variations in revenue contribution.
- Developed interactive Power BI dashboards to visualize monthly sales, revenue performance, product mix, and customer purchasing patterns.
- Quantified the relationship between promotional discounting and revenue, identifying a 17.6% reduction in revenue associated with discounting.
- Interpreted analytical findings and developed recommendations around discounting, customer targeting, and payment incentives to support revenue and profitability decisions.

DATA ANALYST | INDEPENDENT PROJECT **May, 2025**

University of Lagos

- Designed and analyzed a survey-based study examining factors associated with academic performance among Faculty of Science students.
- Processed, cleaned, and analyzed questionnaire data using SPSS and Excel to identify patterns and relationships within the dataset.
- Interpreted statistical findings and translated results into structured reports to communicate key insights to stakeholders.
- Collaborated with team members to develop a standardized project reporting framework, improving consistency and quality across project outputs.

EDUCATION

- **M.Sc. Statistics** | University of Lagos | 2026
- **B.Sc. Statistics** | University of Lagos | 2023

CERTIFICATIONS & PROFESSIONAL TRAINING

- **TMP Data Analysis Course** | Advantra Technology | 2025
- **Industry Engagement and Application** | Department of Statistics, University of Lagos | 2023
- **Excel Skills for Data Analytics and Visualization** | Coursera | 2022

LEADERSHIP & VOLUNTEER EXPERIENCE

- **Vice President** | National Association of Ogun State Students (NAOSS), University of Lagos Chapter | 2022 – 2023
- **Public Relations Officer** | National Association of Ogun State Students (NAOSS), University of Lagos Chapter | 2021 – 2022
- **Chairman** | COSLAG Tour Team | 2023
